Model: LINEAR

Product and ordering information

Frame:	Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cover.
Seat:	<p>Spring system with permanently elastic steel sinuous springs and upper-side cover. Loose seat cushions with a PUR foam core, covered with a ticking (filled with high quality filling material which may contain an admixture of feathers), according to the requirements of BS 5852.</p> <p>We exclude „live plucking“ for the procurement of these feathers! Cover made of cotton wool fleece.</p>
Upholstery:	<p>(for illustration see „cross sections and ordering information“)</p> <p>A „particularly casual upholstery“ is characterised by a very comfortable and soft surface. This is achieved, for example, by a ticking with various fillings (e.g. fibres, balls. down, feathers or similar materials). In the upholstery construction, a foam core or foam cushion, conforming to the requirements of BS 5852, usually represents the basic upholstery. Already in new condition or after the first use the covers can exhibit a pronounced wave pattern on the seat, back and armrests purposefully based on the design, material and construction which will increase during use. The size of the sewn covers also has a similar influence on sinking and cover stretching. Conclusion: The softer the upholstery and the larger the seat, the greater the sinking in and, ultimately, the stretching of the cover.</p>
Back:	<p>Loose back cushions with a ticking (filled with high-quality filling materials which may contain an admixture of feathers, in accordance with BS 5852 requirements.</p> <p>We exclude „live plucking“ for the procurement of these feathers!</p>
Chamber cushions:	This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.
Decorative fabric:	The decorative fabric (decorative fabric PG 10) is only available for selected types (Stool, flutter cushions and cushions) and pattern matching is not possible. The prices can be found on PG 10.
Dimensions:	Height: 83 cm Depth: 125 cm Seat height: 43 cm Seat depth: 84 cm

Product and ordering information

Miscellaneous:

The seam appearance may vary depending on the fabric, leather or vegan leather used. The markings on quilted mats and cushions are due to design or construction. The processing of decorative seams, cut seams or double seams can be different in the fabric, leather or leather or imitation leather variants. Suites are standardly delivered with the back covered in the chosen fabric. All materialrelated information can be found on the back of the individual fabrics and leaterhs in our fabric and leather samplers. All values stated in the price list are approximate measurements in centimetres and in unused new condition. Please note that in the course of use of very casual upholstered furniture, particularly the seat height and seat depth, there may be noticeable deviations from the dimensions given here. We reserve the right to make changes in form, colour and construction in the course of technical progress. **Please note orders always as standing in front of it from left to right!**

blue angel and longlife

Are you demanding? That's fine - we are too!

Especially in the leather area, a responsible approach to the environment and health is very important for us.. Our leathers have been awarded the „Blue Angel“ because we specifically select upholstery leathers for our furniture that are harmless to health.

So that our customers can enjoy their leather furniture for a long time, we now offer the possibility to take out an additional 5-year service up to 4 weeks after purchasing the furniture.

www.blauer-engel.de/uz148

Blue Angel - environmentally friendly upholstery leather

The Blue Angel for low-emission upholstery leather signals that the excellent leathers minimize the environmental and health burdens from production over the entire daily use to recycling and disposal. The following leather qualities are awarded with the Blue Angel:

Cento
Dickleder Torero
Life-Line
Vicenza

The Blue Angel is the world's most successful eco-label with a brand awareness of 92%!

5-Year-Longlife-Service

With the right cleaning and care products you keep the value of your upholstered furniture and enjoy it for a long time. As part of this 5-Year LONGLIFE-Service, you will receive professional phone support, free special products and free support.

The Service can be completed for the following leather qualities:

Cento
Dickleder Torero
Mercury
Vicenza

Longlife
by 3C Care

5-Year-LONGLIFE-Service provides security for a upholstery leather that is particularly durable and easy to care for!

**OEKO-TEX® STANDARD 100 + klimaneutraler
Hersteller**

What is OEKO-TEX®?

Many of our fabrics and upholstery materials have been awarded the STANDARD 100 by OEKO-TEX® label. If a textile article has been awarded this label, you can be sure that this fabric or upholstery material has been tested for harmful substances and the article is therefore harmless to health.

You can find information on which of our upholstery fabrics are certified and other helpful information on our homepage at <https://www.candy-polstermoebel.de/bezuege/stoffe/>

The award offers you the following advantages:

- STANDARD 100 by OEKO-TEX® is one of the world's most renowned labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.
- The testing is carried out by independent OEKO-TEX® institutes on the basis of a comprehensive OEKO-TEX® criteria catalogue.
- The test procedure takes into account many substances, both regulated and non-regulated, that could be harmful to human health.
- In many cases, the limit values set for the STANDARD 100 go beyond national and international standards.
- The catalogue of criteria is updated at least once a year and expanded to include new scientific findings or legal requirements.
